

2019 UnitedHealthcare Medicare Advantage Copay Guidelines

All UnitedHealthcare Medicare Advantage plans have an annual out-of-pocket maximum for covered medical benefits. Copays and coinsurance may vary depending on the member's plan.

- Group Retiree plans may have different copays and coinsurance than standard cost sharing.
- A copay applies for any care received for a medical condition that's treated or monitored during a preventive visit.

We follow the Centers for Medicare & Medicaid Services (CMS) Medicare [coverage and coding guidelines](#) for all network services. You can view [Coverage Summaries](#) on [UHCprovider.com](#).

Please use the following cost-sharing information when treating and servicing UnitedHealthcare Medicare Advantage members.

If you have questions, contact your Provider Advocate or call Provider Services at **877-842-3210**.

Benefit	Copay and Coinsurance Guidelines
Alcohol Misuse Counseling	<p>Medicare covers one annual alcohol misuse screening for adults who misuse alcohol but aren't alcohol dependent. Coverage is limited to one screening per year.</p> <p>People who screen positive can receive up to four face-to-face counseling sessions per year (if they're competent and alert during counseling). A primary care doctor must provide the counseling in a primary care setting.</p> <p>Alcohol, Chemical and/or Substance Abuse: Detoxification and Rehabilitation - Medicare Advantage Coverage Summary</p>
Allergy Testing and Treatment	<p>A copay or coinsurance applies for allergy testing.</p> <p>There's no cost share for professional services for allergen immunotherapy, including provision of the allergen extracts.</p> <p>Allergy Testing and Allergy Immunotherapy - Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Ambulance Transportation</p>	<p>A cost share applies for every one-way ambulance trip according to Medicare guidelines. If a provider group starts a transfer between facilities and arranges for transportation, cost sharing will be included either on the transferring hospital claim or the receiving hospital claim and will be included in the inpatient or ambulatory reimbursement.</p> <p>Covered ambulance services include air and ground services to the nearest facility that can provide care only if the member’s health would be endangered by other means of transportation or if authorized by the plan.</p> <p>The member’s condition must require both the ambulance transportation and the level of service provided for the billed service to be considered medically-necessary.</p> <p>Non-emergency transportation by ambulance is appropriate only if it’s documented that the member’s condition is such that other means of transportation could endanger their health – regardless if another form of transportation is available – and that transportation by ambulance is medically necessary.</p> <p>Ambulance Services – Medicare Advantage Coverage Summary</p>
<p>Annual Wellness Visit</p>	<p>There’s no coinsurance, copay or deductible for an annual wellness visit.</p> <ul style="list-style-type: none"> • If the member has had Medicare Part B for more than 12 months, they’re entitled to an annual wellness visit with a primary care provider to develop or update a personalized prevention plan based on their current health and risk factors. • The annual wellness visit is covered once every calendar year. Visits don’t need to be 12 months apart. • Visits do not include lab, x-ray or non-radiological diagnostic services. If ordered and performed during the preventive visit, these additional services will be billed separately according to Medicare guidelines and a cost share will apply. • The member’s first annual wellness visit can’t take place within 12 months of their “Welcome to Medicare” preventive visit. However, a “Welcome to Medicare” visit isn’t required if they’ve had Medicare Part B for 12 months. <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Annual Routine Physical Exam	<p>All of our Medicare Advantage plans cover an annual routine physical examination with no cost share. The exam includes a comprehensive physical exam and evaluates the status of chronic diseases.</p> <ul style="list-style-type: none"> • The annual routine physical exam doesn't include any other services such as lab, x-ray or non-radiological diagnostic services. If ordered and performed during the preventive visit, these additional services will be billed separately according to Medicare guidelines and a cost share will apply. • The annual routine physical exam is covered once every calendar year. Visits don't need to be 12 months apart. <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>
Behavior Therapy for Cardiovascular Disease	<p>Coverage extends to one visit a year for members with high-risk factors to help lower risk for cardiovascular disease.</p> <p>Cardiovascular Diagnostic Procedures – Medicare Advantage Coverage Summary</p>
Breast Cancer Screening	<p>The following services are covered:</p> <ul style="list-style-type: none"> • One baseline mammogram for women ages 35-39 • One screening mammogram every year for women ages 40 and older • Clinical breast exams once every 2 years <p>A screening mammogram is used for early detection of breast cancer in women who have no signs or symptoms of the disease. We cover both 2D and 3D mammograms.</p> <p>No cost share will be applied for a screening mammogram, including when a mammogram that started as a screening procedure turns into a diagnostic procedure during the same session.</p> <p>Women with a history of breast cancer or any signs or symptoms of breast cancer are not eligible for a screening mammogram, but may be eligible for a diagnostic mammogram, which is subject to a radiologic diagnostic cost share.</p> <p>Radiologic Diagnostic Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Cervical and Vaginal Cancer Screening (Pap Test and Pelvic Exam)	<p>Covered once a year for high-risk women and every two years for all other women.</p> <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>
Colonoscopy	<p>We follow Medicare coverage coding guidelines to determine whether a colonoscopy is screening or diagnostic.</p> <p>For members ages 50 and older, we cover the following services:</p> <ul style="list-style-type: none"> • Fecal occult blood test once a year • Screening colonoscopy once every 10 years or every two years for members at high risk of colorectal cancer, but not within four years of a screening sigmoidoscopy • Flexible sigmoidoscopy or screening barium enema once every four years • Cologuard™ multitarget stool DNA test once every three years <p>No cost share will be applied to a screening colonoscopy, including when a colonoscopy that started as a screening procedure turns into a diagnostic procedure because of the discovery of an abnormality requiring further surgery during the same operative session.</p> <p>Members with a history of colon cancer, or have had polyps removed during a previous colonoscopy, are not eligible for a screening colonoscopy, but may be eligible for a diagnostic colonoscopy, which is subject to an outpatient surgery cost share.</p> <p>A colonoscopy or sigmoidoscopy conducted for polyp removal or biopsy is a surgical procedure subject to an outpatient surgery cost share.</p> <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Depression Screening	<p>We cover one screening for depression per year in a primary care setting that can provide follow-up treatment and referrals. Annual depression screenings may be performed separately by a primary care doctor and can take place during a scheduled office visit.</p> <p>The “Welcome to Medicare” visit and first annual wellness visit include an annual depression screening. If a member needs further evaluation to diagnose their condition, or if they need mental health treatment, a cost share may be applied.</p> <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>
Diabetes Outpatient Self-Management Training	<ul style="list-style-type: none"> • Up to 10 hours of training per year in 30-minute group sessions. This includes education about how to monitor blood sugar, diet, exercise, medication and reducing risks. We cover individual sessions if no group sessions are available or if you believe special needs prevent the member from participating in a group setting. • May also qualify for up to two hours of follow-up training each year when ordered by you or another provider as part of the patient’s care plan. The follow-up training must take place in a calendar year after the date the initial training was received. <p>Diabetes Management, Equipment and Supplies – Medicare Advantage Coverage Summary</p>
Diabetes Screening (Fasting Plasma Glucose)	<p>Diabetes screening is covered when provided according to Medicare coverage guidelines:</p> <ul style="list-style-type: none"> • The member has any of the following risk factors: <ul style="list-style-type: none"> - High blood pressure (hypertension) - History of abnormal cholesterol and triglyceride levels (dyslipidemia) - Obesity - History of high blood sugar (glucose) - Family history of diabetes • The member may be eligible for up to two diabetes screenings a year based on test results. <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Dialysis	<p>The outpatient dialysis treatment cost-share applies for dialysis and all related services performed in a dialysis facility whether in or out of the service area.</p> <ul style="list-style-type: none"> • A separate Medicare Part B drug cost-share is assessed for medications administered in the dialysis facility and billed separately from the dialysis service. • For dialysis performed in an inpatient hospital, the inpatient hospital cost-share applies. • For dialysis (peritoneal or hemodialysis) in a member’s home and for home support services such as visits by trained dialysis workers, the home health agency cost-share applies. • For home dialysis equipment and supplies and for certain drugs for home dialysis, the durable medical equipment (DME) and related supplies cost-share applies. <p>Dialysis Services – Medicare Advantage Coverage Summary</p>
DME and Related Supplies	<p>The DME cost-share applies to all medically-necessary Medicare-covered DME and related supplies, including, but not limited to:</p> <ul style="list-style-type: none"> • Wheelchairs, crutches, powered mattress systems, hospital beds ordered by a provider for use in the home, IV infusion pumps, speech generating devices, oxygen equipment, nebulizers and walkers. <p>Durable Medical Equipment, Prosthetics, Corrective Appliances/Orthotics and Medical Supplies – Medicare Advantage Coverage Summary</p> <p>Durable Medical Equipment, Prosthetics, Corrective Appliances/Orthotics and Medical Supplies – Grid</p>
Enhanced Counterpulsation (ECP) and Enhanced External Counterpulsation (EECP)	<p>Treatment may consist of up to 35 one-hour individual treatment sessions. We cover members diagnosed with disabling angina who aren’t candidates for surgical intervention. A cost-share may apply for each treatment session depending on the place of service.</p> <p>Cardiac Pacemakers and Defibrillators – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Emergency and Urgent Services	<p>The cost-share for emergency and urgently needed services, including worldwide emergency coverage, varies by benefit plan.</p> <ul style="list-style-type: none"> • An emergency department copay applies but may be waived if the emergency department visit results in admission. Please refer to the member’s evidence of coverage for details. • An urgent care cost-share applies, and could differ based on whether the urgent care center is contracted or non-contracted. Additional cost shares may apply depending on services received. <p>Emergent or Urgent Services, Post-Stabilization Care and Out-of-Area Services – Medicare Advantage Coverage Summary</p>
Immunizations and Vaccinations	<p>Covered services include:</p> <ul style="list-style-type: none"> • Pneumonia vaccine • Flu shots, each flu season in the fall and winter, with additional flu shots if medically necessary • Hepatitis B vaccine for members at high or intermediate risk • Other vaccines if members are at risk and they meet Medicare Part B coverage rules <p>There’s no office visit cost-share if the immunization or vaccination was the only reason for the visit.</p> <p>The office visit cost-share will apply if services that would incur a cost-share were provided during the same visit as the immunization or vaccination.</p> <p>Other vaccinations and immunizations not covered by Medicare may be covered under Medicare Part D.</p> <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Inpatient Hospital Admissions and Care</p>	<p>Depending on the member’s benefit plan, an inpatient hospital cost-share may apply:</p> <ul style="list-style-type: none"> • If the member’s plan requires a per-day copay, the member will have a copay for each day and/or hospital for the same admission. Once the member reaches the copay maximum, or their out-of-pocket maximum, there’s no additional copay. • If the member’s plan requires a per-admission copay, the member is responsible for one copay for the admission, even if they’re transferred to another hospital during the same stay. • Some plans cover unlimited days for each hospital stay while other plans follow Original Medicare coverage and limit inpatient hospital stays to 90 days per benefit period. • Transfer to a separate facility type such as an inpatient rehabilitation hospital is considered a new admission. • For mental health admissions, some benefit plans may have a different inpatient acute hospital cost-share: either a different per-day copay or different maximum number of days. <p>Hospital Services (Inpatient and Outpatient) – Medicare Advantage Coverage Summary</p>
<p>Medical Nutritional Therapy</p>	<p>Medical nutritional therapy is covered for members with diabetes or renal disease, or after a kidney transplant when referred by their doctor, including:</p> <ul style="list-style-type: none"> • Three hours of individual counseling during their first year and two hours each year after that. • If the member’s condition, treatment or diagnosis changes, the member may receive additional hours of treatment. <p>Diabetes Management, Equipment and Supplies -- Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Medicare Part B: Outpatient Injectable and Infusion Medications</p>	<p>Physician-administered outpatient injectable and infusion medication policies:</p> <ul style="list-style-type: none"> • The Medicare Part B drug cost-share applies per drug per day for covered outpatient injectable drugs when administered at the physician’s office. • If the injectable medication is given in the physician’s office and an office visit is billed, there will be cost sharing for both the physician office visit and the injectable. • There is no separate cost share other than the office visit cost share for administering the injection. • Refer to “Immunizations and Vaccinations” on page 7 for more information on cost sharing. • When an injectable medication is administered in an outpatient hospital setting, there will be cost-sharing for both the outpatient hospital services and the injectable. <p>Home Health Injectable and Infusion Drugs Policies:</p> <ul style="list-style-type: none"> • Medically-necessary medications dispensed for home infusion therapy that are administered through an infusion pump are covered under either Medicare Part B or the Part D prescription drug benefit, depending on the medication. • Medically-necessary medications dispensed for home infusion therapy that are administered as injectables are covered under Medicare Part D. • To authorize these services, continue using the established protocol based on your contract with UnitedHealthcare Medicare Advantage or its affiliates. If you have questions, call the Provider Services number on the back of the member’s ID card. • A cost share for durable medical equipment and components may apply when the medications are administered in a home setting. <p>Self-Administered Outpatient Injectable and Infusion Medications</p> <ul style="list-style-type: none"> • We cover self-administered outpatient injectable and infusion medications under the Medicare Part D prescription drug benefit. <p>Chemotherapy</p> <ul style="list-style-type: none"> • Chemotherapy drugs are Medicare Part B drugs when administered in an outpatient or office setting, regardless of the method of administration. • The chemotherapy drug cost-share applies to the chemotherapy drug and its administration. • Chemotherapy drugs administered in the home by infusion may be either Part B or Part D.

Benefit	Copay and Coinsurance Guidelines
Medicare Part B: Outpatient Injectable and Infusion Medications (continued)	<p>Immunosuppressive Drugs The Medicare Part B cost-share applies to all members for covered immunosuppressive drugs provided post-transplant.</p> <p>Medications/Drugs (Outpatient/Part B) – Medicare Advantage Coverage Summary</p> <p>Chemotherapy, and Associated Drugs and Treatments – Medicare Advantage Coverage Summary</p> <p>Transplants: Organ and Tissue Transplants – Medicare Advantage Coverage Summary</p>
Medications: Outpatient Pharmacy Benefit – Insulin	<p>We cover insulin and insulin syringes under the Medicare Part D prescription drug benefit.</p> <p>Insulin pumps worn outside the body are subject to the durable medical equipment cost-share.</p> <p>Covered continuous glucose monitoring systems are subject to the durable medical equipment cost-share.</p> <p>Diabetes Management, Equipment and Supplies – Medicare Advantage Coverage Summary</p>
Mental Health – Inpatient	<p>Some benefit plans have a different inpatient acute hospital cost-share for mental health admissions: either a different per day amount or different maximum number of days.</p> <p>Covered services include:</p> <ul style="list-style-type: none"> • Mental health services that require a hospital stay with a 190-day lifetime limit for inpatient services in a psychiatric hospital. The 190-day limit doesn't apply to mental health services provided in a psychiatric unit of a general hospital. • Inpatient substance abuse services <p>Mental Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Non-Radiological Diagnostic Tests</p>	<p>A cost-share applies to the following common non-radiological diagnostic tests:</p> <ul style="list-style-type: none"> • ECG • EKG • Holter monitor • Pulmonary function testing • Sleep studies • Stress test <p>Cardiovascular Diagnostic Procedures – Medicare Advantage Coverage Summary</p> <p>Sleep Apnea: Diagnosis and Treatment – Medicare Advantage Coverage Summary</p> <p>Respiratory Therapy, Pulmonary Rehabilitation and Pulmonary Services – Medicare Advantage Coverage Summary</p>

Obesity screening is covered once per year.</p> <p>Obesity counseling coverage includes:</p> <ul style="list-style-type: none"> • One in-person visit every week for the first month • One in-person visit every other week during months 2-6 • One in-person visit every month during months 7-12, if they lose at least 6.6 lbs. within the first six months <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Observation Care</p>	<p>Hospital observation billed with an emergency room place of service is subject to the emergency services cost-share. Observation billed with an outpatient hospital place of service is subject to the outpatient hospital cost-share.</p> <p>If emergency room and observation are billed together, only the emergency room cost-share applies.</p> <p>Observation services shouldn't be billed concurrent with diagnostic or therapeutic services that include active monitoring. A separate cost-share applies to diagnostic or therapeutic services billed with observation, when appropriate.</p> <p>Observation Care (Outpatient Hospital) – Medicare Advantage Coverage Summary</p>
<p>Outpatient Hospital Services</p>	<p>Medically-necessary services provided in an outpatient facility or outpatient department of a hospital for diagnosis or treatment are covered and may be subject to cost sharing.</p> <p>When members receive services for multiple benefit categories during the same visit, a separate cost-share applies for each service received. The following benefit categories may incur a separate cost share:</p> <ul style="list-style-type: none"> • Outpatient surgery • Medicare Part B drugs, including chemotherapy and chemotherapy administration • Blood • Physical, occupational, speech and pulmonary therapy • Mental health and psychiatric services • Renal dialysis • Lab • Radiological services • Non-radiological tests <p>Hospital Services (Inpatient and Outpatient) – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Outpatient Surgery, Including Services Provided at Hospital Outpatient Facilities and Ambulatory Surgical Centers</p>	<p>Outpatient surgery and procedures may be subject to cost-sharing at the time of service according to the following policies:</p> <ul style="list-style-type: none"> • The facility or physician must be licensed by the state as an ambulatory surgery center or outpatient hospital facility. • The copay is applied per visit. • Medicare Part B drug cost-share could be applied separately to outpatient injectable and infusion medications administered in an outpatient hospital and billed separately from the procedure. • Separate cost-sharing applies for any radiological or non-radiological diagnostic testing or lab work billed along with outpatient procedures. <p>If coinsurance is applied under the member’s benefit plan, the coinsurance is applied to the entire allowable cost of the outpatient procedure, including both facility and professional charges.</p>

Benefit	Copay and Coinsurance Guidelines
Physician Office Visits, Including Telephonic, Online Consults, Anticoagulation Monitoring	<p>The physician office visit copay may apply when services are received in an office setting. Covered services include:</p> <ul style="list-style-type: none"> • Evaluation and management services • Office visit • Medical or surgical services furnished in a physician office • Monitoring services, consultation, diagnosis and treatment <p>For primary care physician house calls, the physician office visit cost share applies to evaluation and management services done in the member’s home.</p> <p>For monitoring anticoagulation medications such as Coumadin, Heparin and Warfarin, the physician office visit cost-share will be assessed only if the monitoring is provided during an office visit. To qualify, the physician must:</p> <ul style="list-style-type: none"> • Personally perform an initial evaluation of the member • Order and supervise the anticoagulation monitoring • Be physically present in the immediate office at the time of service <p>A Doctor of Pharmacy can provide services at a Coumadin clinic or facility as long as they are:</p> <ul style="list-style-type: none"> • Licensed by the state and performing within the scope of practice • Performing under the supervision of a Doctor of Medicine or Osteopathy, who must be in the office to offer assistance if needed <p>When an injectable medication is administered to the member, the following cost-sharing scenarios apply:</p> <ul style="list-style-type: none"> • If the only charge on the claim is for the injection, only the outpatient injectable drugs cost-share is assessed. • If there is a charge on the claim for both the injection and an evaluation and management service, both an outpatient injectable drugs cost-share and a physician office visit cost-share will be assessed. <p>The specialist office visit cost-share applies to Medicare-covered telephone or online consultations. Some plans offer an additional telehealth benefit not covered by original Medicare with no cost-share.</p> <p>Separate surgery-related office visits performed during the global post-operative period aren’t included in the office visit cost-share provision since these services are already included in the surgical allowance.</p> <p>Physician Services – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Prosthetic Devices and Related Supplies (Including Orthotics)	<p>The DME prosthetics and orthotics cost-share applies for each medically-necessary Medicare-covered prosthetic or orthotic device, including replacement or repairs of such devices and related supplies. Coverage includes but is not limited to:</p> <ul style="list-style-type: none"> • Devices including, but not limited to, colostomy bags and supplies directly related to colostomy care, pacemakers, braces, prosthetic shoes, artificial limbs and breast prostheses (including a surgical brassiere after a mastectomy). • Certain supplies related to prosthetic devices and repair or replacement of prosthetic devices. • Some prosthetic devices following cataract removal or cataract surgery. <p>Durable Medical Equipment, Prosthetics, Corrective Appliances/Orthotics and Medical Supplies – Medicare Advantage Coverage Summary</p> <p>Durable Medical Equipment, Prosthetics, Corrective Appliances/Orthotics and Medical Supplies – Grid</p>

Benefit	Copay and Coinsurance Guidelines
<p>Laboratory Services</p>	<p>If the plan calls for a laboratory cost share, the cost share applies per day per provider, not per laboratory test. To prevent multiple lab cost-shares for a single visit, all lab services must be billed by the same provider on the same date of service on a single claim.</p> <p>If a member has blood drawn or a specimen collected at the physician’s office, cost-sharing is not assessed for venipuncture or labs billed with an office place of service:</p> <ul style="list-style-type: none"> • An additional cost share for the physician office visit isn’t assessed if the blood draw or specimen collection was the primary reason for the member’s visit. • An additional cost share for the physician office visit applies if other physician services are rendered. <p>If a member goes to an outpatient hospital or freestanding lab for lab services only, the lab cost share applies.</p> <p>If a re-draw is required, members will not be assessed an additional lab cost share.</p> <p>Additional lab cost-shares apply for labs performed on later dates.</p> <p>The lab cost share assessed cannot exceed the total contracted or payable amount of the lab charges per visit. The member’s cost share should not exceed the provider’s reimbursement rate.</p> <p>Lab tests associated with the following Medicare-covered preventive services will not be assessed a cost-share:</p> <ul style="list-style-type: none"> • Pap smear • Colorectal, prostate and cardiovascular screenings <p>Laboratory Tests and Services – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
<p>Preventive Care</p>	<p>We follow Medicare coverage and coding guidelines for network preventive services. If the member is treated or monitored for an existing medical condition during the preventive visit, a cost-share applies for the existing medical condition.</p> <p>The following preventive services are covered with no cost-share at the same frequency as with original Medicare and should be billed according to Medicare guidelines:</p> <ul style="list-style-type: none"> • Abdominal aortic aneurysm screening • Alcohol misuse screening and counseling • Annual routine physical exam (not Medicare-covered) • Annual wellness visit • Bone mass measurements (bone density) • Breast cancer screening (2D and 3D mammograms) • Cardiovascular disease risk reduction visit (behavioral therapy) • Cardiovascular disease screening - • Cervical and vaginal cancer screening (pap test and pelvic exam) • Colorectal cancer screening • Depression screening • Diabetes screening • Diabetes self-management training • Flu, pneumonia, and hepatitis B vaccines • Glaucoma tests for those at high risk • Hepatitis C screening • HIV screening • Human Papillomavirus (HPV) screening • Lung cancer screening with Low Dose Computed Tomography • Medical nutrition therapy services • Medicare Diabetes Prevention Program (MDPP) • Obesity screening and counseling to promote sustained weight loss • Prostate-specific antigen test • Sexually transmitted infections screening and counseling • Tobacco use cessation counseling • “Welcome to Medicare” preventive visit <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Prostate Cancer Screening	<p>For men ages 50 and older, covered services include:</p> <ul style="list-style-type: none"> • Digital rectal exam: subject to cost sharing per the member’s evidence of coverage. Cost sharing applies to this preventive service according to Medicare guidelines. However, many UnitedHealthcare Medicare Advantage plans do not charge member cost sharing for this service. • Prostate Specific Antigen test (refer to the Medicare Coverage Summary) <p>Preventive Health Services and Procedures – Medicare Advantage Coverage Summary</p>
Radiation Therapy	<p>A cost-share per procedure or per visit applies:</p> <ul style="list-style-type: none"> • For members with coinsurance, members will pay a percentage of the amount paid to the provider for all covered procedures. • For members with a copay, members will pay the applicable copay per visit <p>Examples include, but are not limited to:</p> <ul style="list-style-type: none"> • Brachytherapy • Radioactive implants (separate outpatient surgery cost-share may be applied for placement of an interstitial device) • Conformal proton beam radiation • Therapeutic radiology or radiation (radium and isotope) therapy <p>Note: Gamma knife and stereotactic procedures are covered as outpatient surgery with the applicable cost-share.</p> <p>Radiologic Therapeutic Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
Radiology Services – Basic and Complex	<p>Radiology cost-sharing may vary for the following separate cost-sharing categories:</p> <ul style="list-style-type: none"> • Medicare-covered breast cancer screening mammography and bone mass measurement are Medicare-covered preventive benefits with no cost-share. These services are covered at the same frequency as covered under Original Medicare. • Flat film x-rays or a conventional x-ray that produces a two-dimensional planar image, are subject to a cost-share (per image or per day) in addition to any applicable office visit cost-share billed. <p>For other radiological diagnostic services not including x-rays or separately identified preventive services:</p> <ul style="list-style-type: none"> • A copay cost-share applies per day to the vendor or facility. • A coinsurance cost-share applies per procedure to the vendor or facility. • Radiology services that require specialized equipment beyond standard x-ray equipment performed by specially-trained or certified personnel including: <ul style="list-style-type: none"> - Specialized scans: CT, SPECT, PET, MRI, MRA - Nuclear studies - Ultrasounds - Diagnostic mammograms - Interventional radiological procedures such as myelogram, cystogram, angiogram and barium studies • The Medicare Part B cost-share applies to injectable or infused drugs such as contrast material dye and radioactive tracer and other cardiac medications given in conjunction with an imaging procedure such as nuclear stress test and CT scan. • Per procedure means per CPT® procedure code billed. <p>Radiologic Diagnostic Procedures – Medicare Advantage Coverage Summary</p> <p>Radiologic Therapeutic Procedures – Medicare Advantage Coverage Summary</p>

Benefit	Copay and Coinsurance Guidelines
