

Observation Services Policy, Facility

IMPORTANT NOTE ABOUT THIS REIMBURSEMENT POLICY

You are responsible for submission of accurate claims. This reimbursement policy is intended to ensure that you are reimbursed based on the code or codes that correctly describe the health care services provided. UnitedHealthcare Community Plan reimbursement policies use Current Procedural Terminology (CPT®*), Centers for Medicare and Medicaid Services (CMS) or other coding guidelines. References to CPT or other sources are for definitional purposes only and do not imply any right to reimbursement. This reimbursement policy applies to all health care services billed on UB04 forms. Coding methodology, industry-standard reimbursement logic, regulatory requirements, benefits design and other factors are considered in developing reimbursement policy.

This information is intended to serve only as a general reference resource regarding UnitedHealthcare Community Plan's reimbursement policy for the services described and is not intended to address every aspect of a reimbursement situation. Accordingly, UnitedHealthcare Community Plan may use reasonable discretion in interpreting and applying this policy to health care services provided in a particular case. Further, the policy does not address all issues related to reimbursement for health care services provided to UnitedHealthcare Community Plan enrollees.

Other factors affecting reimbursement supplement, modify or, in some cases, supersede this policy. These factors include, but are not limited to: federal &/or state regulatory requirements, the facility or other provider contracts, the enrollee's benefit coverage documents, and/or other reimbursement, medical or drug policies.

Finally, this policy may not be implemented exactly the same way on the different electronic claims processing systems used by UnitedHealthcare Community Plan due to programming or other constraints; however, UnitedHealthcare Community Plan strives to minimize these variations.

UnitedHealthcare Community Plan may modify this reimbursement policy at any time by publishing a new version of the policy on this Website. However, the information presented in this policy is accurate and current as of the date of publication. CPT Copyright American Medical Association. All rights reserved. Application

This reimbursement policy applies to UnitedHealthcare Community Plan Medicaid products.

This reimbursement policy applies to services reported using the UB-04 form or its electronic equivalent or its successor form. This policy applies to all products and all network and non-network facilities including, but not limited to, non-network authorized and percent of charge contract facilities.

Policy

Overview

Observation care is defined as a well-defined set of specific, clinically appropriate services, which include ongoing short term treatment, assessment, and reassessment before a decision can be made regarding whether patients will require further treatment as hospital inpatients or if they are able to be discharged from the hospital. Observation status is commonly assigned to patients who present to the emergency department and who then require treatment or monitoring before a decision is made concerning their admission or discharge.

Observation stay is an alternative to an inpatient admission that allows reasonable and necessary time to evaluate and render medically necessary services to a member whose diagnosis and treatment are not expected to exceed 24 hours but may extend to 48 hours, but no longer than 48 hours without a discharge or admission. There will be no reimbursement for observation services in excess of 48 hours

Reimbursement Guidelines

Observation services are reported using HCPCS code G0378 Report units of hours spent in observation (rounded to the nearest hour).

Observation Service Billing Requirements:

- Observation services are outpatient services

- Facility billing outpatient claims under a 13X or 85X (Type of bill).
- Report revenue code 0762 and HCPCS code G0378

State specific observation maximum hourly limits are based on state regulations and guidelines. Limits beyond the state hourly maximums will be denied. For a list of Medicaid states with maximum hourly limits, refer to the [Attachment Section](#)

Facilities who are reimbursed based on a Prospective Payment System (PPS) methodology are exempt from this policy
